

MARION'S PRIMA DONNA CAPTURED

Miss Anna Haynes, One of Our Pop-
ular Home Girls, Weds Musi-
cal Director of Danville, Ill.

The social circle of Marion had quite a surprise last week, when Mr. and Mrs. R. F. Haynes received from their daughter Miss Anna, the announcement of her marriage to Mr. Louis A. Pike, of Danville, Ill., in that city, on March 29th 1916. Miss Haynes was filling an engagement in Danville, with Doree's Beaux and Belles, a concert company with which she had been traveling only a few months. This being the home of Mr. Pike, the young people concluded to steal a march on their friends.

Miss Haynes comes from one of the oldest and most prominent families of Crittenden county. Her great-grandfather, Robert Haynes, was one of Crittenden's pioneers from North Carolina, and his descendants are numerous throughout the county today, and have been and are today prominent in the affairs of church and state throughout the history of the county. Her father, R. F. Haynes, has been a prominent druggist here in Marion for more than 20 years, where he and his good wife have and enjoy a host of friends.

Miss Anna has spent most of her life in Marion, where her amiable disposition has won for her many friends who have watched her musical career with great interest. In childhood her voice was one of promise, and in the fall of 1910 she went to De Land, Florida and entered the Stetson University, taking up a course in vocal culture, and pursued her studies there until the spring of 1913, when she graduated in her course. During this time she developed a most wonderful voice. In 1914 she spent some months in Nashville, studying under the best instructors in vocal music. In the spring of 1915, she went to Chicago, Ill., to further pursue her studies. Here, she attracted the attention of the Musical Director of Redpath's Bureau, and was engaged by them for their Summer Chateaus. At the close of this season she returned to Chicago and resumed her work in voice. In the early winter she made an engagement with the Doree's Beaux and Belles, and has made

an extended tour with them. She will close her engagement with this concert company in a few weeks. Her marriage, however, will not close her musical career, Miss Haynes declares. She is very ambitious, and her husband being of congenial taste and a musician, they will pursue their course together.

The Crittenden Record-Press and the people of Marion congratulate Mr. Pike in the selection of a life companion. Mrs. Pike has a charming personality and that, combined with her grace of manner, made her a favorite among her home people. We will freely forgive Mr. Pike, if he will bring her back home often.

The home paper of the groom, The Danville Press, of Tuesday morning, March 28, 1916, says:

The culmination of an interesting romance in theatrical circles, was the celebration of the marriage of Louis A. Pike, musical director at the Lyric Theatre, son of Mrs. R. L. Pike, of Logansport, Ind., and Miss Anna Haynes, daughter of Mr. and Mrs. R. F. Haynes, of Marion, Ky., which took place at 5:30 o'clock Monday evening at the parsonage of the Trinity Lutheran church, when Rev. J. E. Elbert, pastor, read the service using the ring ceremony. The bride is a member of a wealthy family, her father being a prominent druggist in Marion, Ky. She was educated under the tutelage of J. B. Stettin, of De Land, Fla., and finished under the celebrated "Miro Delmato," now of Castle Square Opera Co., and is recognized as a very noted vocalist. She has been doing concert and vaudeville work, and for the last half of the week will appear with the "Doree's Beaux and Belles," at the Lyric theatre which will conclude her engagement.

Mr. Pike is a graduate of the Boston Conservatory of Music, and his mother is also a graduate of the same institution and now a well known pipe organist. Mr. Pike came to Danville March 16, when the new Lyric was opened, and has made many friends during his short residence here. The young couple will make Danville their home and will have the best wishes of friends here and also in their home cities, to the latter the news of their marriage will come as a complete surprise.

EFFICIENT SCHOOLS

Indifference on the Parent's Part
May Cause the Life of the Child
To Become a Wreck.

In my article of last week there was a misprint which I will correct before continuing this description of the Efficient Schools.

In this expression, "The young teacher is not so much to blame for her unpreparedness as her parent is," should have read, "The young teacher is not so much to blame for her unpreparedness as her parent is usually her goad. Impulse, inspiration, vision if you please, is the life of the world," etc.

The parent of this young teacher feels that he has been to considerable expense in sending his child to school, and to be able to recover some of this expense he drives her into the teaching profession even before she has this impulse, inspiration or vision,

but he is not the parent that I am after this week.

The next functionary that I want to bring into the list is the real parent—the patron of the school. Too often we find him indifferent, careless and negligent as regards his child's mental welfare when, really, he should be the most enthusiastic of the whole list. Co-operation is the life of any system. Without it the best of results can not be had. "A house divided against itself will fall" is as true as any other passage of Holy Writ.

The farmer who will let the weeds and grass grow up and choke out his corn simply for the lack of industry or because he is too lazy or indolent to give it the proper amount of labor required to keep down the weeds and grass, and lend his share of human assistance to that of nature that is required to produce a good crop is usually classed as a vagabond, a "nothing." Child-like, or that of man may be likened unto plan-life with the brain of the child forming the ground or foundation for the rooting and growing of a life, just as the soil of the earth furnishes the ground or foundation for the growing of the plant. It is well known that the soil will produce thistles, brambles and other undesirable vegetation quite as prolifically as it will the cherished

variety. With this knowledge within us we devote our time, our energies, our money, our strength, and really our lives to keeping down the weeds so that the corn may thrive, develop and mature. Should the weeds be permitted to grow there will be little or no corn. It is as fundamentally true of the human brain as of the natural soil that sin and vice, and the many other hindrances that clog the lives of mortals will surely grow therein: lessening, destroying the happiness of homes; narrowing, shortening the lives of men; destroying nations and damning worlds. Ignorance! How marvelously powerful!

Right here, I am inclined to say that the parent who will permit his child to grow up in absolute ignorance of the best things with which our age is abundantly blessed is still more of a miscreant than is the vagabond farmer, regardless of station or standing, but I had better not say it. Who has been his tutor? May be the parent's education has been neglected. When Philip went to preach to the Ethiopian and found him reading Isaiah's prophecy of the coming Christ he asked, "Understandest thou what thou readest?" And he said, "How can I, except some man should guide me?" Philip accepted a job of teaching right there and did his whole duty, and the world was made better by it. If your neighbor can see no good in child-training, school work, or education, if you like the term better, pray with him, plead with him, prevail with him that it is the foundation stone of all christian civilization. You who are rowing stretch out a hand to him that is drifting. Parents must be made to know that their children must have culture or life is a failure, to a great extent, with them. It will cost a great deal less money for us to try to save a soul in Crittenden county than it would for us to make the trip all the way to China on the same mission, and the one in Crittenden county is just as precious and the star added to our crown will be just as bright. Speak a word to your indifferent and benighted neighbor about his boy's education. Tell him that he is sinning stealing, robbing, cheating, defrauding his country out of a good citizen: his neighbor out of a congenial companion; himself out of the inexpressible happiness of knowing that he has a boy or a girl who is doing some-

GIRL'S DECLAM- ATORY CONTEST

To Be Held in the School Auditor-
ium on Friday Evening, April
7th.—Ten Participants.

The annual Girl's Declamatory Contest will be held in the School Auditorium, Friday evening, April 7th, at 8 o'clock. Ten young ladies of the High School have volunteered for the contest and this bids fair to be a battle royal. This is the largest number ever entered in a contest in Marion and the speeches have been selected with the utmost care. Some of the newest and best declamations to be obtained will be given, and lovers of this kind of entertainment are promised a rare treat. The young ladies are being trained by Miss Holtzclaw, and this fact alone is an assurance that the entire program will be interesting and entertaining.

The medal this year will be given by that "always enthusiastic school-supporter and friend of the High School," Mr. S. M. Jenkins. So long as we have such loyal and public-spirited men as Mr. Jenkins to help us on, Marion High School will keep climbing. YOU can help by being present at the beginning of the program Friday evening. We are sure that we can depend on you.

The winner of the contest will represent Marion at the Inter-scholastic Association which meets at Morganfield on April 28. It will be remembered that Marion won last year and we feel that she has a splendid chance this year. Show your loyalty to the best school in the state and your interest in the truest and dearest girls in the land by being present Friday evening.

The program follows:

II---L. E. Johnson
On Two-Cent Passenger Rates

The farmers of this nation are vitally interested in railroad rates and equity between passenger and freight rates is especially important to the man who follows the plow for the farmer travels very little but he is a heavy contributor to the freight revenues. Some of the states have a two cent passenger rate and whatever loss is incurred is recovered through freight revenue. The justice of such a procedure was recently passed upon by the Supreme Court of West Virginia and the decision is so far-reaching that we have asked L. E. Johnson, president of the Norfolk and Western Railway whose road contested the case to briefly review the suit. Mr. Johnson said in part: "Some ten years ago, passenger fares were fixed by the legislatures of a large number of states at two cents a mile. As a basis for such economic legislation, no examination was made of the cost of doing the business so regulated, nor was any attention given to the fact whether such a rate would yield to the railway companies an adequate or any net return upon the capital invested in conducting this class of business. "Such a law was passed in West Virginia in 1907. The Norfolk and Western Railway Company put the rate into effect and maintained it for two years. Its accounting during these two years showed that two cents a mile per passenger barely paid the out-of-pocket cost and nothing was left to pay any return on capital invested. It sought relief from the courts. Expert accountants for

both the State and the Railway Company testified that the claims of the railroad were sustained by the facts. Two cents did not pay the cost of carrying a passenger a mile. The State, however, contended that the railroad was earning enough surplus on its state freight business to give a fair return upon the capital used in its passenger as well as its freight business. For the purposes of the case, the railroad did not deny this, but held to its contention that the State could not segregate its passenger business for rate fixing without allowing a rate that would be sufficient to pay the cost of doing business and enough to give some return upon the capital invested in doing the business regulated. This was the issue presented to the Supreme Court. Its decision responds to the judgment of the fair-minded sentiment of the country. The Supreme Court says that, even though a railroad earns a surplus on a particular commodity by charging reasonable rates, that affords no reason for compelling it to haul another's person or property for less than cost. The surplus from a reasonable rate properly belongs to the railway company. If the surplus is earned from an unreasonable rate then that rate should be reduced. The State may not even up by requiring the railroad to carry other traffic for nothing or for less than cost. The decision is a wholesome one and demonstrates that the ordinary rules of fair dealing apply to railway companies. The fact that one makes a surplus on his wheat crop would never be urged as a reason for compelling him to sell his cotton at less than cost. It would not satisfy the man who wanted bread to be told that its high price enabled the cotton manufacturer to get his raw product for less than cost. In this case the court reaffirmed the homely maxim that each tub must stand upon its own bottom."

Carranza Dollar Two Cents.

San Antonio, Tex., March 22.—The value of the Carranza dollar fell to 2 cents in American money on the San Antonio market today. This is the lowest price quoted since the money became recognized by local banks. The highest price was 10 cents, which was paid immediately after the Carranza de facto government was recognized by the United States.

Europe Strips U. S. Of Horses.—Army is Short.

San Antonio, Tex., April 4.—The European war has so stripped the United States of good horses that the United States army officers admit there is a serious shortage of cavalry remounts. General Funston has searched Texas without result for available animals, capable of standing up under hard campaigning. The buyers of France, Italy and Great Britain have swept Texas bare

of cavalry animals.

St. Louis, Kansas City, Atlanta, Chicago and smaller horse markets now are being investigated by army officers in the hope of obtaining a sufficient supply in a hurry. Here also, however, the army men found that the buyer for the warring nations of Europe had preceded them.

American cavalry regiments are reported to be short now of remounts needed in real campaign work and should many be lost in fighting the problem would become grave. State cavalry regiments too are reported as generally deficient in cavalry animals.

This is considered important for, in case the Mexican campaign develops and the need arises to send all the regular cavalry into the Southern Republic. National Guard cavalry regiments probably will be the first to be called for border patrol work.

A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life. If your work is tiring; if your nerves are excitable; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength. Scott's is strengthening thousands of mothers—and will help you. No alcohol. Scott & Downe, Bloomfield, N. J.

Former Mayor's Widow Robbed of Her Jewels.

Chicago, April 4.—Mrs. F. A. Busse, widow of a former Mayor of Chicago, is today grieving over the loss of jewels which were the gifts of her late husband and which were practically all that was left after the settlement of the estate. When Mrs. Busse returned home last night she found that her apartment had been broken into and everything of value taken, including the jewels and \$125 in currency. The jewels were said to be valued at \$3,000.

Recently Mrs. Busse obtained a position in the City Collector's office at \$30 a week and yesterday was her first day at work.

OVERRUN BY SEA LIONS

Pups Invade Lightkeeper's House And He Asks Relief.

The keeper of the lighthouse on Ano Nuevo Island, below Pigeon Point, on the California

coast, has appealed to Federal officials here for relief from the sea lions, which the law forbids him killing, and which have increased to such an extent that he fears they will take possession of the island.

Even his private quarters are invaded by the pups, he declared in a communication received here. When he opens the door a troop of young sea lions march into the house, and at meal time the entire colony surrounds his domicile, barking for admittance. Sleep is difficult, he declared, for the slightest disturbance during the night, he said, was the signal for a sea lion chorus, which can be heard all over the island.

The problem will be presented to the Department of Commerce and Labor.

Buy Tree for \$1 And Will Sell it for \$1,000

Maysville, Ky., April 4.—Albert I. Ebright will make 99,900 per cent., on an old walnut tree he bought from the Adams County Building & Loan Company for \$1. When he cut it down it proved to be of the curly walnut variety, a valuable veneering wood. The buyer for Hoffman Bros., of Fort Wayne, Ind., who was buying timber in this section, offered Ebright \$700 for the log, but it was refused, Ebright holding it at \$1,000. The buyer told him to hold it for a week and he would take it.

When you pay your bills, give your grocer first money. He supplies you with the most necessary things in life--food. The most important thing in the world is to get something to eat. If you must put off paying anyone, therefore, let it be anyone BUT the grocer. He is not wealthy. He seldom has a surplus in the bank. His money is all invested in merchandise and accounts. He buys of wholesale houses who sell on stated terms and have experts who are paid to "get the money" when due. He can't pay them with excuses. He cannot afford collection expenses. He should not be expected to. If he is courteous enough to give credit, show him equal courtesy by paying him promptly and without making him extra expense. He has no security. What you buy of him is soon consumed and he cannot get it back. He trusts you on your honor alone. Who else does as much for you? He asks no favors--needs no charity, but is entitled to a square deal. Be square--be fair--be just. Don't double your account.

MORE RHEUMATISM THAN EVER BEFORE

Clergymen, Lawyers, Brokers, Mechanics and Merchants Stricken.

Our old friend Rheumatism is having his inning this year, and a few words of caution from one who knows all about it may not be amiss.
 Wear rubbers in damp weather; keep your feet dry; drink plenty of lemonade, and avoid strong alcoholic drinks. If rheumatism gets you, or sciatica, and you have sharp twinges, gnawing pain or swollen joints or muscles, you can get rid of all agony in just a few days by taking one-half teaspoonful of Rheuma once a day.
 All druggists know about Rheuma, it's harmless, yet powerful; cheap, yet sure, and a 50-cent bottle will last a long time. Ask J. H. Orme or any druggists.

When the bowels become irregular you are uncomfortable and the longer this condition exists the worse you feel. You can get rid of this misery quickly by using **HERBINE**. Take a dose on going to bed and see how fine you feel next day. Price 50 cents. Sold by James H. Orme, Marion, Ky.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof — "I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thanking you for what your remedy has done for me." — James S. Ferguson, Philada, Pa. Sloan's Liniment kills pain. 25c at Druggists. 3

A Letter From J. F. Bruce.

Enterprise, Ore.,
 March, 27th, 1916.
 Mr. S. M. Jenkins,
 Editor Record-Press,
 Marion, Kentucky.

Dear Sir:
 Find inclosed my check for \$1.00 for which please renew my subscription to paper for another year.

We have had a pretty severe winter with lots of snow but Spring is opening up nice and prospect for a big crop is good. The big sawmill is going full blast, cutting 150,000 feet a day and all kinds of business is good with lots of building going on in town.

We look for a big year in all lines. Family is all well but myself, I am suffering from an old broken rib. I am still in harness biz and it is increasing fast. I have two of the boys in now in place of one.

We all want Wilson for our next President. A great many of the sheepmen were badly scared when he was elected but have changed their minds and most of them will now vote for him.

Give our regards to all old friends, with best wishes for your success, I am
 Yours truly,
 J. F. BRUCE.

LOYD'S BRAIN LEAKS.

By F. S. LOYD:

Mattie Smith says, any old thing will do when a thirty-year-old girl wants a husband, but she hunts for something that is up-to-date when she wants a new hat.

Mrs. Irene Smith says, A cross-eyed man can't help it and is entitled to sympathy. But what excuse is there for a man who wears his whiskers parted in the middle.

Quite a surprise was given Henry Rice when he went to bed one evening last week. He noticed something out of place and soon discovered that six pigs had camped there for the night with him.

Guy Rice says, When father used to decide to stay at home in the evening and rest, mother usually begins telling us children about what a good time she

before she was married. And mother would sigh and say: "I wish I had it to do over again I'll bet I would stay single."

And then father will get mad and slam the door and go over to the drug-store and talk about his chances for Representative.

Sam Howerton says, Never put off until tomorrow the bath you should take today.

Ed Baker says, Any old time a woman passes three other women and doesn't see powder on their faces she gets scared and hoots it to an eye doctor.

George Reed says, A boy hasn't a bit of trouble in learning the things that he should not know.

Taylor Stokes says, Up-to-date old Doctor Matrimony has never failed to cure a case of lovesick.

Miss Ella Guess says, Anyway an old maid has the consolation of knowing that she was born that way.

Ed Baker says, Judging from what the women are wearing, it looks as though we were going to have a very open summer.

George Loyd says, If a girl tells you that you can have a kiss if you can catch her, you can bet that she is not going to break any speed records.

Lacy Loyd says, Always be good to your mother, fellows. When you were a little baby the rest of the world thought you looked like a scalded monkey, but your mother knew that you were the most beautiful thing ever invented.

Albert Elder says, It only takes a man twenty minutes to write a love letter and then it takes him twenty years to explain the letter after he marries the girl.

Guy Rice says, Mother always like to put in a whole day cleaning up the house because she knows that about 30 minutes after father gets home the house will look like it did before she started cleaning up.

Mrs. Mollie Hibbs says, Every now and then a sweaty man will crowd up beside you when you are on the street car and makes you doubt the fact that more than 50,000 cakes of soap are manufactured in Cairo every year.

"It says here that a man has been sent to the insane asylum because he knew that his head was a block of wood," remarked Dave Woods.

"What did they want to send him there for?" Asked George Crider.
 "Why didn't they send him to the State legislature."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
 We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

 Sold by Druggists. Take Hall's Family Pills for constipation.

A Sea of Pumice.

A steamship which recently made the port of San Francisco reports having sailed in a sea of pumice, near Sydney, New South Wales, about January 6. Apparently the material had been cast up by a submarine volcanic outbreak and chunks ranging in size from that of a marble to a plug hat were thrown on deck by the waves. The vessel was several hours in passing through the affected region.

GIRLS LEAP FROM WINDOW

Thrilling Scenes Enacted at Hermitage Hotel, Nashville, Tenn.

Poised on a ledge up on the third floor of the Hermitage hotel a girl stood Monday afternoon and a big crowd that had gathered below when fire engines from headquarters arrived, gasped as they saw smoke pouring out of the window behind her.

For one tense moment she stood there, and then out and down she leaped. With hair flying and whirling clothes the girl's slender form hurled to-

wards the cement walk below. Certain death seemed her fate to those who had not seen the firemen with their big life net spread out below to catch her. And then before a breath had been taken by the crowd, she was safely caught and the clicking picture machine whirled on as another form, this time a boy's, appeared on the ledge.

Thus began Monday afternoon a series of the most daring feats ever witnessed in Nashville, conducted by the "Ruth" moving picture actors. One after another the members of the cast, boys and girls, leaped from the ledge, every one seeming to defy death until Fire Chief Rozetta ordered the picture halted for fear of accident.

One boy and one girl were considerably jarred by their fall, but no serious injury resulted.

The crowd that had gathered to witness the daring feats, after the one breathless moment when Miss Caroline Minton led off, greatly enjoyed the spectacle.

The wind played havoc with the girls' skirts and the newest striped hosiery was considerably in evidence as they sailed downward. —Nashville Tennessean.

Stomach Trouble Solved

Most stomach troubles are not diseases. The stomach is simply weak. Tired out. The right kind of a tonic is what is needed. A few meals, well digested, will furnish natural strength. That is what a tonic will do for you. It will start the stomach going right. Then the stomach will take care of itself.

PE-RU-NA

Good the Year 'Round

Always Ready-to-Take There is no use of writing a new prescription every time a remedy is needed for a weak stomach. No use whatever. The old, well-tried remedies, put up on purpose for such cases, are a great deal better than an off-hand prescription. Peruna is the remedy that people have relied upon for a great many years. It is ready to take, composed of pure drugs, of uniform strength and composition. Not an experiment. Peruna is a substantial, household remedy, with forty years of splendid history behind it. In buying Peruna you take no risk. You know what you are getting.

CARRIES IN UNION COUNTY

Good Roads Advocates Win Over
Opposition By Majority
of From 200 to 300.

Morganfield, Ky., April 3.—Interest was at fever heat all over Union county to-day over the vote on issuing bonds for \$400,000 for county road building. A much larger vote was polled than in the race for Governor, and both sides were active in getting voters to the polls, giving free auto rides. The bond issue carried by a majority of 200 to 300.

BLACKFORD

The windy month of March being numbered with the past and balmy April having dawned, your "scribe" feels somewhat inclined to write again.

Miss Anna Bishop one of Webster county's enterprising school teachers, who has recently been operated on for appendicitis at Evansville, has returned home and is doing fairly well. Miss Anna is a daughter of our friend R. F. Bishop, a prosperous farmer who resides north of Blackford.

Joseph L. Chandler Robert T. Brantley, John F. Crowell, Iley P. Orr and Finnie Orr, of Cave Spring, were here last Thursday.

J. K. Earl, forman of a gang working for the Illinois Central railroad company, was here last week soliciting helpers and the following took the required physical examination and enrolled as members of said gang:—Chas. W. Wilson, Floyd Lawson and John P. Perry.

Joseph B. Phillips, John L. Reynolds, Nathan N. Crowell and Levi Johnson are contemplating going to Mexico in the near future, provided said Phillips will agree to take the "crew" in a boat.

Your item "Jog-ger-up" read in a recent issue of the Record-Press an impressive statement made by Mayor G. W. Stone, also in a later issue of the same paper a very interesting article written by County Superintendent of Schools, E. J. Travis, concerning the improvement of public schools, qualification of teachers, interest of trustees, etc. The writer has during the fleeting period of her "earthly pilgrimage," tried to teach in the public schools and yet realizes, to some extent, the responsibilities of each part of our schools, therefore, with good wishes for the welfare of all parties concerned, we readily and conscientiously acquiesce, without question, to the able arguments put forth by the worthy gentlemen, who are so earnestly striving for better times in old Crittenden. "We are (and rightly so) judged by the company that we keep."

Since the last items were penciled from this hamlet death has been in our midst and borne away two of our townspeople, David Moore Crowell and Ninnie Pernecia Clark. Mr. Crowell was native of Crittenden Co., but has resided here more than two years. He died at his residence on Dye street Monday, March 20th, 1916, aged 73 years and 11 days, after a lingering illness of paralysis.

Mrs. Clark, wife of T. M. Clark, died at her home on Birch street Monday, March 27th, 1916, aged 37 years and 20 days. The cause of her death was carcinoma of breast with which she had been afflicted for a number of months.

The funerals and interments were held at the Crowell graveyard in east Crittenden on the days following their deaths. The funeral services were conducted by Rev. John R. King a each burying.

"We know not who next may fall
Beneath the chastening rod;
One must be first as may we all
Prepare to meet our God."
—Puelia.

Dr. Waite Confesses**Murder Of Peck.**

New York, Apr. 4.—What purports to be a formal confession by Dr. Arthur Warren Waite, that he murdered his father-in-law, John E. Peck, of Grand Rapids, is printed this morning by the New York World. The confession is said to have been contained in a letter sent to the newspaper by Waite. Accompanying it is another letter signed by Walter Rogers Duel, Waite's counsel, in which he is quoted as saying Waite desired to make his statement "to unburden his soul somewhat from the heavy load upon it as the only thing he could do in atonement."

Mrs. Milton, Teacher
Half Century, Is Dead.

Member of Old and Prominent
Louisville Family Dies Very
Suddenly.

The Times has this to say of the sister of Mrs. H. V. Escott: One of Louisville's most capable and popular educators was removed by the death at 2 o'clock yesterday morning of Mrs. Jennie Smith Milton at her home, 417 West Hill street. For more than half a century she had taught the first grade at the public school on Kentucky street, between Brook and First streets, starting the educational training of hundreds of the city's citizens.

Her end came suddenly, resulting from a heart attack. She had been troubled with slight spells of heart disease, but her condition was not regarded as serious until the fatal attack seized her. She expired in a short time. Mrs. Milton was in her sixty-ninth year. She was a native of Louisville and a daughter of the late Thomas P. Smith, one of the foremost citizens of his day. She was the widow of Scott Milton. She leaves a son, T. Smith Milton; two sisters, Mrs. Henry Escott, of Marion, Kentucky, and Mrs. John G. Simrall, of Covington, Ky., brother, Thomas P. Smith, of Chicago. A sister, Mrs. James Buchanan, died two years ago. Mrs. Milton was a member of the Second Presbyterian church.

Funeral services were conducted at the residence at 2:30 o'clock yesterday afternoon. Burial was in Cave Hill cemetery.—Louisville Times.

DEATHS**MRS. SID CLARKE**

wife of T. M. Clarke, died at her home Monday, Mar. 27th, at 11 a. m. Many friends and relatives were at her bedside when the end came. Sister Clarke was a good christian lady and a member of the Cumberland Presbyterian church, at Blackford, Ky. She was laid to rest at the Crowell cemetery, a large crowd of friends and relatives attended the funeral. Bro. John King conducted the service and Blackford Lodge No. 337, I. O. O. F., of which Bro. T. M. Clark is a member, laid the remains to rest.

Sister Clarke leaves to mourn her loss a husband, Bro. T. M. Clarke, two precious little girls, a father, mother, brothers and sisters. The Lodge wishes to extend their heartfelt sympathy to Bro. Clarke and his two children.

Dear father and children mourn not for wife and mother for she is done with suffering and has gone to her reward in the sweet beyond, and your loss is her eternal gain. But look to Jesus, He is your best friend in time of trouble and the only one that can fill the vacant place of a mother. But we are willing to do all we have coveted to do and more to console and comfort a brother. Yours in F. L. & T.

Want A Bridge Across Tradewater

H. L. Culley, Horace Smith, John Wascomb, Hon. Phil Winston, all of Sturgis, Ky., F. L. Black, Wm. Brown, Hon. E. L. Nunn, of this county, and others came before the Crittenden county Fiscal Court in the interest of a bridge across Tradewater at the mouth of Cypress Creek. This is one of the main county roads and a bridge should be built there at once to give the people of that section an outlet. Union county will build a turnpike to the county line at the crossing, so that the people will have a solid rock road to market all the year.

If you want more for your produce take it to H. L. Lamb, Crayne, Ky.

Men Fight Like Dogs

For Food in Alaska.

Seward, Alaska, March 29.—

Conditions due to famine in native settlements in the Kuskowim hot springs country were described as terrible by William Lee and Joseph McDowell. At Sleimut village they found eighty natives living on dog salmon, which they devoured like animals. When the natives discovered the white men's camp they sat around in a circle, waiting for scraps of food, over which men, women and children fought like dogs.

Why Gasoline is Soaring.

In Farm and Fireside Dr. Walter F. Rittman, chemical engineer of the U. S. Bureau of Mines guesses—and his guess is worth something—that gasoline will go right on advancing in price.

"In 1910 there were 350,000 automobiles in the country," he says.

"Now there are 2,250,000.

"A million new ones are added annually, while about one fourth that number are scrapped. "There are 700,000 gasoline engines working on farms, and 6,000,000 other farms are waiting to buy engines.

"There are about 300,000 motor boats in the country, using gasoline.

"The demand for gasoline is increasing by leaps and bounds. The supply of petroleum is decreasing.

"Before the war we were exporting about 100,000,000 gallons of gasoline annually. Now it is 300,000,000 or 400,000,000 or thirty to forty per cent. of the whole production."

38 BRITISH SHIPS SUNK BY ENEMY DURING MARCH

Lives Lost 124, According to Summary Issued by Board Of Trade.

London, April 4.—The Board of Trade's summary of casualties to British shipping reported in March shows that nineteen steamers, aggregating 44,606 tons, and eight sailing vessels of 1,865 tons were sunk by enemy warships. Ten steamers, of 13,927 tons, were sunk by mines. One steamer of 2,131 tons was sunk either by an enemy warship or a mine.

Forty-three lives were lost in the case of the steamers sunk by warships, and eighty-one in steamers sunk by mines.

STIR IN SCANDINAVIA OVER BRITAIN'S ACTION

Thought Blockade of Germany Will Be Prosecuted With More Rigor.

London, April 4.—A great stir has been caused in Scandinavia by the report that Great Britain has decided to suspend Section 19 of the declaration of London, according to the Copenhagen correspondent of the Exchange Telegraph Company. The general opinion is that the decision is attributable to a determination to prosecute the blockade of Germany with more rigor.

Some newspapers suggest that the suspension is possibly a preliminary to a formal announcement of a complete blockade, which may have been decided upon at the Paris conference of the Entente Allies.

Great Britain issued an order in council March 30, which declared that "neither a vessel nor her cargo shall be immune from capture for a breach of blockade upon the sole ground that she at the moment is on her way to a nonblockaded port." This is in contravention of Section 19 of the declaration of London, which declared neither a vessel nor her cargo on the way to a nonblockaded port could be captured.

Are you bright and happy in the mornings?

Catarrh is the great American ailment. Its effects are far more general than usually are understood. Catarrh of the stomach and kidneys is a most frequent cause of chronic dyspepsia and Bright's disease. Catarrhal conditions in the nose and throat in many cases, leads to deafness.

Even the lungs are affected because catarrhal inflammation finds an open way to the lung substances through the bronchial tubes.

If you are not bright, cheerful and refreshed in the mornings, catarrh probably is the cause.

The mental and physical condition of catarrh sufferers is pitiable but it is surprising how many people suffer from catarrh when they fully believe something else is the cause.

Catarrh can be easily detected. Some of its commonest symptoms are: dull, throbbing headaches, watery eyes, constant sniffing, dropping of mucous into the throat at night and awakening choked and half-nauseated, sleeplessness, dizziness, fullness of the membranes, pains in the stomach, side and kidney region, faulty digestion, bad breath and coated tongue.

Tanlac was created particularly to combat catarrh. Thousands are testifying daily that Tanlac has fulfilled its mission.

Tanlac may now be had in Marion at J. H. Orme's drug store, where its merits are explained fully.

Tanlac may be obtained in the following nearby towns:

Blackford, A. T. Brown; Wheatcroft, Hardin Pharmacy; Clay, Kearney Blue; Providence, R. G. Baynham; Sturgis, Meacham & King; Caseyville, W. E. Ames; Fredonia, W. E. Cox; Crider, L. W. Guess; Princeton, Wylie & Walker.

More than 80 counties in Kentucky are actually at work building roads under state supervision and with state aid. Twenty other counties have asked for and been granted such aid and are now preparing to begin work. The state-wide road building movement is on in earnest, and it is here to stay.

At the two penitentiaries, at Frankfort and Eddyville, there are 2,900 men convicts. A large proportion of that number are physically capable of working on the roads. Instead of being so worked, they are let out to prison contractors at an annual loss to the state.

At the coming election, a constitutional amendment to work the convicts on the roads is to be voted on. It has been twice submitted by the General Assembly and once adopted by the people. That adoption was nullified by a failure to advertise the amendment within the prescribed 90 days. The necessary advertising has now been done. The whole question is in the hands of the voters, and both political parties have declared for adoption in their state platforms.

The prison contractor is opposed to adoption. It will put an end to his profits. Organized labor is a unit on wanting to see the amendment adopted. It will put an end to convict competition with free labor. It will put men at work on the roads where there is now a scarcity of labor.

In the state of Virginia, it was found that convict labor effected a saving of \$1,500 a mile in the cost of building roads. In a score of other states, where this labor is used, it has been demonstrated that roads can be built with convict labor at half the cost of free labor.

Convict labor on the roads has proved good for the state and good for the convict. It has helped him physically and morally. It has, in many instances, restored him to good citizenship, and a convict restored to good citizenship is an asset; a convict released to follow a life of crime is a liability.

If Kentucky wants the advantages that come from convict labor on the roads, all that will be necessary will be to vote Yes for the amendment. If Kentucky prefers to let the prison contractor get richer at her expense by continuing in effect a system of slavery, the amendment will be defeated.

But the voter who goes to the polls and fails to vote on the amendment will overlook an opportunity to do his county and the state good service.

Fourfold Return to Conscience Fund

A thirty thousand dollar contribution to United States treasury's conscience fund, the largest ever received, came by mail in registered package mailed recently in New York. Under separate cover came a letter unsigned

ced the sending of the \$30,000 and explained that the sender had restored to the government \$80,000 in all. The money came in a strong linen envelope and was wrapped in thick brown paper. There were eighty-five \$100 bills, twenty-one \$500 bills and eleven \$1,000 bills. Most of them were gold certificates. The conscience fund on March 1 had reached a total of \$459,933. The largest previous contribution was one of \$18,000, the sender of which admitted that he had been guilty of customs frauds. The letter that accompanied the recent contribution reads as follows: "In a separate package I am sending you \$30,000 to be added to the conscience fund. This amount makes a sum aggregating \$80,000 which I have sent the United States, or four times the amount I stole years ago. I have hesitated about sending all this money, because I think it does not really belong to the government, but conscience has given me no rest until I have consummated the four fold return, like the publican of old. May every thief understand the awfulness of the sin of stealing is the sincerest wish of a penitent. Let no one claim any of this amount on any pretext."

WHAT CHANCE HAS KENTUCKY?

PEOPLE ARE ASKING QUESTIONS

Naturally no sane person cares "to jump out of the frying pan into the fire." Sane people always want to know, they are from Missouri and must be shown.

Since the matter of taking the State Superintendent of Public Instruction out of politics and of allowing him to succeed himself, has been widely discussed in the papers of the State, the sane people are asking themselves and other people questions. Some of them are asking, "If the office is taken out of politics and he is to succeed himself, will he be appointed by a board or will he be elected, and how?" Others are asking, "But if he is allowed to succeed himself in office mightn't a shrewd fellow get in and stay in for ever and ever?" These questions are the ones which every sane taxpayer and voter in the State should ask himself.

Before answering these very pointed questions for the sane people of the State, it should be stated, and stated emphatically, that people everywhere are extremely anxious to get the schools and the whole school system out of politics. The point which both the parent and voter is: what is the best method so that definite results will be accomplished? If the legislature which convenes this winter should pass favorably on the amendment eliminating the name, "State Superintendent of Public Instruction," from the Constitution, it would still have to be voted upon by the people of the State at a regular election. After the amendment had been passed both by the legislature and the people, the manner of selecting or electing a superintendent would be taken up by the legislature of the State.

If the people acting through their representatives in the legislature, still wished to elect the State Superintendent, it could be done on an "off year" when no State officers were being elected. In other words, it would not then be possible for him to be swept into office because he happened to be on the Republican or Democratic ticket. To make the necessity for an election at other than a regular State election clear, it need only be stated that nine out of every ten men who go to the polls, never know even the names of the men who are running for the office of State Superintendent. If anyone doubts the absolute accuracy of this statement, he should ask himself and nine other men the names of the two men for whom the people voted for State Superintendent last November.

A second plan for the securing of an efficient man for this most important position would be to have him appointed by a strong, non-partisan School Board. It must, however, be understood thoroughly that such a board would have to represent the mass of people of the whole State as well as the school men and women. In either of the above cases, it would always be to the distinct advantage of the State Superintendent to "make good" so that he might continue in office. Under the present system he must hold the office for four years then go back to teaching or he must use his position to secure for himself some other political office.

That the schools, and especially the rural schools, must be gotten out of politics goes without saying. The people and the legislators are sure to see this in a big, broad, patriotic way and carry the amendment. Afterwards the legislature can surely be trusted to learn what other states are doing with this most important office and then decide what is best for the school children of the State. The time is now ripe to act, because the people and the men who will represent them at Frankfort this winter, will be more than willing to do anything in their power to further the interest of the children who can not help themselves.

Princeton Testimony Remains Unshaken.

Time is the best test of truth. Here is a Princeton story that has stood the test of time. It is a story with a point which will come straight home to many of us.

J. H. Thompson, plumber, Princeton, Ky., says: "I was troubled for five years with backache and other annoying symptoms of kidney complaint. During the early part of the winter when the cold weather set in, I was sure to have an attack of lame back that would make it impossible for me to work for days at a time. I tried many medicines but got no relief. I finally got Doan's Kidney Pills and in two days was back to work, feeling better in every way. I do not have backache now and my health has been greatly improved."

OVER FOUR YEARS LATER Mr. Thompson, said: "I am glad to confirm my former endorsement of Doan's Kidney Pills. Whenever I have had occasion to use this excellent medicine I have been greatly benefitted."

Price 50 cents, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Thompson had. Foster-Milburn Co., Props., Buffalo, N. Y.

REALLY LITTLE DAMAGE DONE

Joke, It Appeared to Comedian, But to Curio Store Proprietor It Was a Horror.

George Robey, the comedian, frequently drops in for a chat with a dealer in London. In the outer room are vases and jars, cups, groups and sets of pieces, valued at anything from \$0 to \$600 guineas. Inside is the proprietor's private apartment. To reach him you gingerly pick your way through the thousands of pounds' worth of valuable china.

"One day, not long ago," Robey says, "I had been chatting within, and a friend was waiting for me in the saloon without. As I bade the dealer 'Good morning' and passed through to the street I heard a dreadful crashing of broken china! My friend turned upon me an eye glassy with anguish. Never shall I forget the proprietor's expression of supreme horror as he rushed from his sanctum and saw us standing amidst the debris of broken chinaware which lay strewn around our feet. He was speechless—choking."

"Legal proceedings? Five thousand pounds? In a word, what was the damage? you inquire. Well, I am sorry to have to confess it (for the proprietor was in bed for a week as the result of the shock), but it was a gag prearranged. For my friend, who had brought with him a couple of dozen cheap soup plates, had, at a given signal from me, dropped them in a heap upon the floor."—London Tit Bits.

West Indian English.
A traveler just returned from a trip through the West Indies is still laughing over the English used by the natives of the islands, which strikes strangely on American ears.

"I was just leaving a barber shop in Trinidad, after getting a shave," he said, "when the barber, looking closely at my derby, remarked:

"Excuse me, but your hat is nasty, sir."

"I was about to consider it an insult when he picked up the hat and said:

"Your hat is very nasty, sir. Allow me to brush it for you."

"Another time I gave out my wash at a hotel. Presently the black chambermaid came to me to explain that the laundry people refused to undertake the washing and ironing of one of my shirts, as it was too much worn and might fall to pieces in the process. Never take a joy ride with anybody you would not be caught dead with.

The proprietor of the hotel at Tickville reports business very dull, as only a clock stopped there this week.

Seeing in the Tidings that health is not good in this section, Sidney Hocks has laid in a supply of medicine.

Miss Gondola Henstep was compelled, with little resistance, to sing a song at the Dog Hill church Sunday night. The audience as well as the stove pipe stood the ordeal well.

Poke Eazley, who tore down the stairway leading to the loft of his home, will put it up again, as he did not know his wife was up there at the time.

Mr. Smith, who almost quit going to the Dog Hill church because the preacher slighted him by never asking him to do anything at the meeting, was present Sunday and was allowed to take up collection and put some wood in the stove.—(George Bingham in Hogwallow Kentuckian.)

A Good Family Cough Syrup

Can be made by mixing Pipe-Tar, Aconite, Sugar, Hyoscyamus, sassafras, Peppermint, Ipecac, Rhubarb, Mandrake, Capsicum, Muriate Ammonia, Honey and Glycerine. It is pleasant, healing and soothing, raises the phlegm, and gives almost instant relief. For convenience of those who prefer not to fuss, it is supplied ready made in 25c. bottles under name of Dr. Bell's Pine-Tar-Honey. Can be had at your druggist. Insist on getting Dr. Bell's Pine-Tar-Honey and see the formula is on the package.

Paint Will Kill Germs.

Paint is one of the most sani-

tary products on the market. Hospitals, hotels, schoolhouses and large buildings are ever watchful for new means of making their buildings more sanitary. That is why they all use paint or varnish. Why should you not be just as particular in your home as hospitals are?

Think of these things when Clean Up and Paint Up time comes.

If the housewife cleans house, why shouldn't the town do the same? We little realize what quantities of rubbish will accumulate in a short length of time. Carelessness is a disease and is very contagious—the germs spread rapidly and the most careful are susceptible to it, once it gets its start.

Don't let your neighbor do it all.

The people are the only ones who can make a spotless town. If every man should appoint himself a committee of one, with one object in view, and that to take care of his own property, by that we mean the alley back of his house and the street in front, and keep them free from all waste materials, it would not take long to change the appearance of the community.

The results would be so great that even the sanguine would scarcely believe it. We would all profit by that activity. Act on the following rules:

Make your home attractive.

Keep it clean.

Keep it in repair.

Keep it healthful.

Keep it livable.

They are simple. A little done each day will make you happier, healthier and more content.—Ex

PUBLIC HIGHWAYS

GOOD ROADS ARE NEGLECTED

Lecture Is Read to States by American Highway Association—New Jersey Took Initiative.

The American Highway association reads the states a lecture on their neglect of good roads. There are 2,250,000 miles of public road in the United States. The annual expenditure for construction and maintenance amounts to \$250,000,000. Yet inadequate results are found everywhere. This is due to the lack of continuity of purpose, the lack of co-ordination in management, and the general lack of control. Of the 2,250,000 miles of roadway, less than 10 per cent is really improved. Improvement in most instances means a plowed furrow for a drain and a wagon load of gravel in a chuck hole. In fact there are only about 120,000

Concrete Road in Indiana.

miles of really good road in all the 48 states. The trouble with highway construction is that often waste and graft get together.

The association has been doing some market figuring, and it finds that 450,000 miles of real highway, around the centers of population, would reduce the cost of living as well as add to the enjoyment of living. A system is proposed whereby each of the states could undertake the construction of 500 or 600 miles of highway each year. Thus in twelve years or so, with the 120,000 miles of road already improved, the nation would possess the nucleus of a fine market system. These roads, radiating from the centers of consumption, could easily be connected with the trunk highways that are now being constructed in all parts of the country, largely as a result of the activity of motor clubs.

Concentration in Washington might mean unity and co-ordination, but it would also mean increased appropriations. The work belongs to the states. It was not, says the highway association, until 1891, that the state of New Jersey took the initiative, and three years later established a department of public roads. Since then other states have followed in form, but hardly in spirit. The association places Indiana in the list of lazy commonwealths. For all the fine gravel roads it possessed a few years ago, Indiana can, apparently, no longer be regarded as a leader in highway improvement. If this is true, it is time that something were done.—Indianapolis News.

SURFACED ROADS IN COUNTRY

Ohio Leads With 28,312 Miles—Indiana Next With 26,831—Missouri Brings Up the Rear.

There are 2,273,000 miles of roads in the United States, of which 247,490 miles, or 10.9 per cent, are surfaced. Of surfaced roads Ohio has 28,312 miles; Indiana, 26,831; New York, 22,398; Georgia, 12,500; Wisconsin, 11,500; Kentucky, 10,656; Texas, 9,700; California, 9,388; Illinois, 9,000; Massachusetts, 8,928; Michigan, 8,850; and Missouri, 8,000 miles.

In 1914 6,805 state and state-aid roads were built, and 39,988 miles were maintained with state aid. The total mileage of state and state-aid roads built in the whole country up to January 1, 1915, was only 35,477 miles.

To Spend \$3,000,000.

Minnesota will spend \$3,000,000 for better highways. To date this year the state has given counties for state aid \$750,000 for highways, which will be increased to \$1,500,000 before next January. George W. Cooley, engineer of the state highway commission, recommends a one-mill tax, and making the state's share of the expense for state roads one-half.

Booster Never Quits.

The good roads booster never quits. He talks good roads until he gets them, and then he keeps reminding everybody what a blessing they are.

Roads Should Shed Water.

Country roads should be kept in such condition that they will shed every drop of water that falls on them.

Unprofitable Roads.

Bad roads are unprofitable. They put a farmer out of business and make nothing for any man.

He Did Not Get The

Raise In Salary.

This exhibit will surprise the fellow who is always wanting a raise in salary, as it shows that he did not work any last year. It does not refer to live stock agents of the railroads nor to cattlemen, for the latter does not draw any salary. When he asked his employer for a raise he was informed that the request was a bit unreasonable, as he had not worked any during the last year just closed. The young man looked surprised and entered a denial but his employer showed him his record as follows: Each year has 365 days, you sleep 8 hours each day, which equals 122 days; this leaves 243 days; you rest eight hours each day, which equals 122 days; this leaves 121 days; there are 52 Sundays that you do not work, 52 days; this leaves 69 days; you have one half day off each Saturday, 26 days; this leaves 43 days; you have one and a half hours each day for lunch, 28 days; this leaves 15 days; you get two weeks vacation each year, 14 days; this leaves one day; and this being the Fourth of July we close on that day, 1 day; total, 0. —Cattle Clatter in Express.

Famous Receipt of the

President's Wedding Cake.

Through the courtesy of the Calumet Baking Powder Co., we are enabled to pass along the recipe used by Mrs. Marian Cole Fisher and Miss Pansy Bowen in the preparation of the famous Wilson-Galt Wedding Cake, which has attracted so much attention throughout the country through the Movie News Weeklies.

Materials Used in the Cake—Nine cups flour, sifted, four cups sugar, granulated; two and one-fourth cups butter, uncolored, unsalted; three cups milk, skimmed; one-half teaspoon each of violet and vanilla extract; one teaspoon rose water; three drops lemon extract; fifteen egg whites nine level teaspoons Calumet Baking Powder. Quantities above are two and one-half times the amount required for usual family size.

Preparation—Assemble all the materials before beginning the mixing. Prepare heart-shaped pan eighteen inches in diameter by placing note paper on the bottom to just reach the sides. Grease the sides one inch up and any portion of the bottom not covered by the paper. Do not grease the paper. Sift the flour once before measuring. Measure into the sifter, add the baking powder and sift five times. Cream the butter, add sugar gradually, and cream until white and fluffy. Whip the egg whites with a large egg whip until the dish can be inverted. Whip the egg whites lightly into creamed butter and sugar. Pour in the milk, sift in the flour, and beat until perfectly smooth. Add the flavoring. Place in a warm oven, temperature about 220 Fahr. Bake at low point of heat, and allow to rise as high as it will before browning over the top. Time for this large cake was two hours.

Meringue Icing—Materials for syrup: Four and one-half cups granulated sugar, one and one-

half cups water. Materials for meringue: Six egg whites, six tablespoons granulated sugar, one and one-half teaspoons Calumet Baking Powder. Materials for finish: Three egg whites, six drops rose water. Quantities above are two and one-half times amount required for usual family size.

Preparation—Make syrup that will crack when dropped in ice water. Whip the six egg whites until stiff. Add the six tablespoons sugar and whip. Then whip in the baking powder. Whip in the syrup until all taken up and it will hold its shape when lifted up on the egg whip. Then whip in the three extra unbeaten egg whites and rose water. If weather is damp it may be well for the amateur to add first about one-half of the egg white, whipping up lightly, later adding balance.

PROMINENT RAILROAD MAN CURED OF STOMACH TROUBLE

Mr. T. R. Wit, city passenger agent of the Pennsylvania Lines, has his office in the Insurance Exchange Building, Chicago.

He was for some time a great sufferer from stomach trouble. After trying various medicines and prescriptions without results, he resolved to see what Mayr's Wonderful Remedy would do for him. This is what he wrote to Mr. Mayr after taking several bottles:

"I wish to let you know of the good I derived from your Wonderful Remedy, and would have done so ere this but was waiting to see if there would be any return of the evil I suffered before using your remedy, but up to the present time I am feeling better than I have for a great many years."

"I can fully recommend this remedy and will always do so, and will personally explain to any one who will apply to me my condition before taking your remedy."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get ONE bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

Piles Cure 1 in 6 to 14 Days

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in six to fifteen days. The first application gives ease and rest. 50c.

NOTICE TO FERTILIZER USERS.

In order to co-operate with our farmers and by request of our County Agent, Mr. J. Robert Bird, we will again act as agent for the purchases of Fertilizer for them this season.

Terms will be strictly cash, as our commission will be too small to admit of time prices.

We will pay for the fertilizer when it arrives and the purchaser pay us for same when loaded on his wagon.

By this arrangement the farmer will get his fertilizer practically at wholesale price, and a considerable saving to him.

thing for the world around her; and worst of all, the child itself of life, present and future. Help to get for every child a square deal.

What do you think of a mother who will spend her time in gossiping and slandering her neighbor, or at the card table, or some other source of useless time killing while her daughter is dying, dying mentally, spiritually and morally for the want of maternal guidance? The right teacher at this critical time can render valuable assistance in saving the child. Get them into school!

What do you know about a father who will keep his boys out of school for more than half the term to help do the work on the farm then loaf around all winter at the country store or in town, spinning yarns, smoking, chewing, and drinking "pale-ale" while the boy is trying to do a whole year's work on half-term time in school "Who can blame the boy for being a son-of-a-gun when his father is going around all the time loaded?" TELEPHONE NOTICE.

Commencing with January, 1916, bills for telephone service will be rendered at a gross rate of twenty-five (25c) cents more than heretofore, but each such bill will be subject to a discount of twenty-five cents if paid at the office of the Company on or before the tenth day of the current month. The net rate remains the same. All that is requested of the subscribers in order to receive this rate, is to pay their accounts for service at the Company's Office, or to mail check (checks preferred) on or before the tenth of the month for which bill is rendered.

Subscribers are respectfully notified that, in order to obviate any possible charge of discrimination, the discount period will be rigidly adhered to as to all subscribers alike, and we ask the co-operation of all subscribers to make this plan a success and avoid the necessity of an increase in the net rate for telephone service at this time.

Respectfully,

Nannie Rivers Dead.

A telegram received Friday by G. W. Cruce, of Crayne, brought the news of the death of his sister, Mrs. Nannie Stephenson, at Joplin, Mo. She was a daughter of the late Ewel Cruce, and was first married to a Mr. Rivers, Jack Stephenson being her second husband. She is remembered by many of our older citizens as a handsome girl and a belle in her day.

W. O. Tucker's Chair Factory Burned; An Old Landmark Gone

Thursday morning at three o'clock when the fire alarm whistle was blown at the power house it was to announce the passing of the old mill on south Main street an old and familiar landmark to all residents and visitors to Marion. The fire when first discovered, was burning fiercely in the upper part and its origin was, and, is still a mystery.

The building was massive, as all mills are, and had a powerful frame of heavy timbers but notwithstanding this, it was soon licked up as it was dry as tinder and has been considered a veritable fire-trap for many years. It was the property of J. W. Wilson, who carried \$1200.00 insurance on it and its contents.

Part of it was used as a residence by Mr. York, who lost much of his household goods with no insurance.

Tucker's home-made chair factory was located in part of this building and was totally destroyed with no insurance. His engine boiler were under a shed outside and were only slightly damaged. Mr. Tucker will probably go ahead as soon as he can make arrangements for a house.

Dupont Company Ready

To Make Nitrates.

Washington, April 4.—Counsel for the E. I. Dupont de Nemours company has informed Secretary Baker at the war department that the company stood ready to build a great hydro-electric plant for taking nitric acid from the air and make its product available to the government for the manufacture of explosives at prices fixed by the secretary of war, if congress would change existing waterpower laws so as to make such a project practicable.

Mr. Baker was given a letter from Pierre S. Dupont, president of the company proposing a bill to provide for fifty year leases on waterpower sites in navigable streams. It was explained that the company contemplated constructing a plant costing \$20,000,000 or more and capable of furnishing all the nitrates now imported from Chile. Secretary Baker tonight declined to say what would be his attitude toward the project.
